Nan Tracy passing

It is with sadness that we announce that Nan Tracy has passed. She is now with Lee whom we lost in April this year. Together they enjoyed more than 50 years of boating, travel, teaching, family and professional endeavors.

Lee and Nan were married 63 years ago and it is impossible to describe the activity or interests of one without including the other. They were always together in their activities: Arrowhead, Hollywood YC, District 13 and Southwestern YC where they lived on their boat for 12 years. We all were guests at their anniversary party and several log bending potlucks featuring their grandson, the grill master.

Nan Tracy was a supporter of Arrowhead Squadron for decades. She headed the "Arrowhead Arrowmates", the women group supporting the squadron. That was before women could be members of USPS. During that time she raised funds necessary to keep the squadron solvent.

Nan is survived by Martha (Dick) of Washington, son Larry of France, daughter Penny (Frank) of Bloomington, CA; son Rick of Wrightwood, CA. Grandchildren include Frederick of France; Patrick of Reche Canyon, CA; Kelly Lee of Oak Hills, CA and "Mikey" Courtney of Wrightwood, CA. She also leaves 13 great grandchildren and one great-great grandson, Conner of Texas.

We wish comfort for their families and friends. Services have not been announced at this time.

Letters to the Editor - - -

Here's where your helpful and constructive ideas could be exposed to the membership

Darrell Sausser, SN

Log Editor, P/C, etc

Last month on the Log I gave you a recipe for the very best Pizza Sauce. As promised today we can make the Pizza Dough.

you will need

- 1 cup warm water (105 to 115 degrees)
- 1 Tsp granulated sugar
- 1 teaspoon of active dry yeast.
- 3 cups all purpose flour (plus extra for kneeding)
- 1 tsp table salt
- 1 tsp Olive Oil
- cornmeal for dusting.

Pour warm water into a measuring cup, add sugar, sprinkle the yeast over the warm water. Let sit for 5 to 10 minutes. or until it becomes frothy. If it doesn't become frothy throw it out and start over as your yeast is no good. Pour the flour and water mixture and the salt into the bowl of a mixer with a dough hook. Mix on low speed until combined, add olive oil and continue to mix on low until it becomes smooth and elastic. 5 to 6 minutes more.

Turn the dough out on a large surface that has been lightly floured. Knead it a few times, then form into a ball. Using a sharp knife cut the dough into 4 equal parts. Shape each piece into a disc and dust with flour.

Set your oven for 500 degrees (700 is better but most ovens won't do this). Using a rolling pin, roll each disc into a 12 inch circle. Place on a pizza pan if you have one, I then use a small paint brush to spread the sauce (see last months Log) on the dough. You can use your imagination from here. I always use some shredded mozzarella cheese (this is what makes it gooey) and some shredded cheddar. artichoke hearts, pepperoni, onions, tomatoe slices ,sliced olives, pineapple, ham pieces, crumbled sausage, anchovies, to name a few. \Our next USPS dinner meeting will be September 14th

We will have a very special speaker that has an interesting background. Any part of his background would make a fantastic topic .

However, It is one particular adventure that he was on that will be the topic on the 14th.

It includes an exotic location, ancient myths, danger, and treasure. You'll be amazed, don't miss the Sept 14th meeting

And remember to RSVP to Cdr Wiley. by Sunday 9/11.

NOODLES REDLANDS FOOTLIGHTERS opens Sept 3rd, Fridays, Saturdays, Sundays through- September

Gail Walker is in a great light comedy this September.

Redlands Footlighters, 1810 Barton Road, Redlands
Starts Sept. 3rd and goes through the end of the month on Fri.
& Sat. 8 PM and Sundays at 2 PM.

The play is "NOODLES", about the challenges of an eclectic family living next door to a nutsy neighbor (guess who). It is well cast and directed.

Reservations: 909 793-2909, (side A is the best). Adults, \$15, students get a discount.

**San Juan Islands Trip
3rd segment (cont'd next month)**

After a delightful time at Friday Harbor, we again set "sail", this time to Deer Harbor on the South side of Orcas Island. We decided we would try our hand at anchoring. Well, the great equipment on the North Star and the beautiful anchorage made anchoring a breeze. Barry did the driving that day and I was in charge of anchoring, with Wendy standing by to help if needed. It went so smoothly that we thought we couldn't be anchored right so we pulled up the anchor and did it again. Success. We just anchored on one hook as there was a lot of room to swing.

We got set and lowered the dinghy for a trip into the little harbor town. It was quite small with a little cafe/hamburger stand on the dock, a small general store and two small gift shops. However, there was a beautiful and quaint post office with Tiffany lamps and old fashioned post office boxes with old bronze fittings. We were quite surprised actually, to find such a beautiful post office in such a small, out of the way place.

One really interesting aspect of the harbor was the seaplanes that came and went. It was fun sitting up in the flybridge watching the land and take off. They were quite efficient.

We used the pump out at Deer Harbor before we left. It was the first time using a pump out on the North Star and we weren't sure how it would go. Our first trial was coming in to the dock where the pump out was located. Being somewhat high off the water we weren't sure about tying up to the dock but we had no problem. The docks had raised cleats in the form of T's so I was able to snag the cleat from the bow of the boat and Rick levered against it and pulled us in so Barry could jump off the back and tie off. Boy, we all looked like pros! Not like our first night trying to pick up a mooring.

We spent a quiet and peaceful night at anchor before setting off for our next destination.

IN MEMORIAM
Bill Marquis memorial gathering

Bill's sister is sponsoring a celebration of Bill's life. We will gather at his home on Saturday September 24th, starting at 1:00 p.m. His home is located at 6282 Avenue Juan Diaz, Riverside 92509. It is in west Riverside, near the western shore of the Santa Ana River, and is within the golf course homes in the area. The gathering is a potluck, so bring your favorite dish or a side dish. Furnished by the hostess will be Hamburgers, drinks, condiments and paper goods.

Parking space is very limited on the cul-de-sac, so you may wish to drop off passengers, then park the car and walk to the house.

Bill was an integral part of the Arrowhead culture and events, attending all meetings and most events. But disabilities caught up with him. He had severe spondylitis - eventually to the point where he could hardly walk and was in constant pain. He also suffered from poor eyesight, to the point where he could only see shadows from his one good eye. The picture in the boat was taken on Lake Mojave with his friend telling him which way to steer. That turned out to be his last boat ride.

Arrowhead friends Skip and Jeanette Matthies have taken care of him on many occasions. Bill sold his beloved boat to them for a dollar, thus he knew that his beloved boat would continue to be on the water even though he couldn't. In years past he wrote a whimsical column for the LOG titled Charlotte's Web. His style of writing would have us smiling, laughing as pondering life's dilemmas. He even consented to riding on my Escapade, and we often towed his boat to Catalina. We'd get to within sight of the island and we'd have to stop sailing long enough for him to jump into his speedboat and speed to the island. He was also the first webmaster, the driving force for Log Bending every month, and the ultimate founder of the Dessert Competition at our annual Christmas party.

Bring pictures and any other memorabilia you may have, to share with the other Arrowheads present.

Arrowhead Sail & Power Squadron

Dear Squadron members

Thank you for participating in 2016 Mayor & City Council Regatta and Triathlon on June 11th, 2016

We truly appreciate your donation of \$500 for the support of our Sailing Program. We hope your skipper and your cheering section had a good time. It is so much nicer in the late afternoon. The temperature was comfortable and we had a nice breeze.

Because of funds raised at the Regatta each year, the Riverside Community Sailing Program has been able to teach introductory sailing skills to nearly 400 youth in our Summer Youth Sailing Classes in a controlled, fun and educational environment. In addition to the sailing classes, the organization promotes water safety and knowledge for a lifetime of boating enjoyment, and encourages the highest level of sportsmanship and seamanship in all aspects of sailing.

The Arrowhead skipper was Darrell Sausser. He came in second place this year, last year he was in third place, and the first year, he got becalmed and didn't finish.

Again, thanks so much for your support!

Best Regards
